

Cycle A whole school overview - mixed age classes

Across the year groups and over Year A & B Wheatfields pupils will learn about the 6 main world religions: Christianity, Islam, Judaism, Hinduism, Sikhism and Buddhism. The  symbol represents a topic considered as 'multi faith' where **multiple** faiths should be covered. Due to the dynamic of Wheatfields Primary School and the United Kingdom, Christianity and Islam are explicitly taught more as standalone religions and topics as these are the 2 majority religions represented in our community.
