

# Year 1 home learning menu - due back by 4<sup>th</sup> December

We would like you to pick **one** item from the menu to complete at home. Once complete take a photo or video and send it to your class email. We will print the photos in school and children will share their creations with the rest of the class.

**Science** - Write sentences about your favourite nocturnal animals. We have been working on capital letters, finger spaces and full stops so this is a really good chance to practise them.

**English** - Last half term we looked at adjectives. Write a descriptive sentence about the tree for each season remember to start with a capital letter, put a finger space between each word and a full stop at the end of each sentence.

**Design and technology** - design and create a bird feeder or bird house for your garden using recycled materials. It's a great way to help the animals as it gets colder and you can watch them come and visit.

**Maths** - create a poster showing all the number bonds to 20.
