

Year 4 Home Learning Project Menu

Summer 2, 2021

Choose one of the following options for your homework project. You need to be as creative as you can. This is an extended homework task. You are expected to spend time on it each week and produce an impressive final piece. You can get information from books or the internet. This is due in on Friday July 9th. If you have any problems with this please speak to one of the Year 4 teaching staff.

Please email a photograph of your completed Home Learning using the class email Class9@wheatfields.cambs.sch.uk or class10@wheatfields.cambs.sch.uk

1. Iron Man Instructions

There are two points in the story of the Iron Man when he is in pieces and needs to be rebuilt. Firstly when he falls from the cliff onto the beach at the beginning of the story and when he needs to be dismantled to go on board a boat to Australia. Write a set of instructions to explain how to rebuild the Iron man. Remember that you need to include a title, introduction, list of equipment, numbered steps, diagrams and a conclusion.

2. Iron Man or Space Angel Dragon 3D Model

Make a 3D model of the Iron Man or Space Bat Angel Dragon. You can choose any materials you have at home to make your model. Perhaps you might recycle boxes, use lego or modelling clay.

3. Perform a poem

Choose a favourite poem and learn it by heart to perform to your class. Use different techniques to bring the poem to life-perhaps adding props or dressing up. You can film your performance and send it in to school or you can just perform your poem to the class at school.

4. Habitats

Go outside and hunt for mini beasts in your garden or local area. Keep a record of the creatures you find and the habitats they live in. This could be by taking a photograph or making drawings and adding notes. You might like to make your own 'Bug Hotel' to attract different animals to visit.
