### Forest School – Build a tepee for teddy

#### Instructions

- Bind 3 or more sticks together using string, an elastic band or by weaving natural materials. The longer the sticks the bigger the tepee 😊
- Now you have the tripod structure needed to create a simple den. (See picture to the left.)
- Add a covering for your tepee such as an old sheet or blanket and use something like clothes pegs to hold it in place.
- Decorate the cover with markers or paint.
- Alternatively, you could use natural materials or layer them over the top for camouflage.
