

Year 2 Home Learning

Spring 1 – Frozen Planet

This half term's home learning menu is based on our topic 'Frozen Planet'. Below are the options for your child to choose from for their home learning.

Research and write a fact file about a polar animal

**Use a title, sub headings, pictures, captions and labels*

Write a riddle about a polar animal. Write 4, 5 or 6 clues. Make them hard. Finish your riddle with 'Who am I?' Draw a picture of your animal and hide it under a flap.

Riddles

A riddle is a type of poetry that describes something without actually naming what it is, leaving the reader to guess.

Create a collage picture of the Arctic or Antarctic. Think of which animals you will include. Use cold colours.

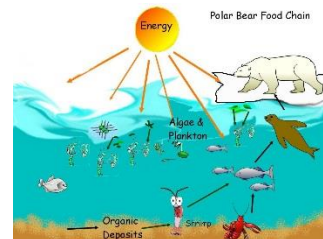

Design a pair of snow boots for an Arctic explorer. Which materials would you use? What features would they have? Draw and label your design.

Learn how to make paper snowflakes. Display them in a picture. Make sure they are all different.

Create a polar animal food chain. Draw and label your food chain. Think about how this food is different to the food that you eat.

Plan the route from your house to the North or South Pole. List or describe the transport that you would take.

Design your own Arctic or Antarctic animal. Explain how they are adapted to living in the cold weather.

****By Friday 31st January, you should complete at least one Home Learning project. Please bring them into school when you have completed a project and you will be rewarded with housepoints. We hope you have fun with your learning.***
