

A 'typical' week in EYFS

The magic of being in EYFS at Wheatfields is that every day is different! We learn in lots of different ways and take part in lots of fun and exciting activities.

The school day begins as we learn to sort our belongings independently and self-register to show we are here.

We look for our mini me and complete a little morning job such as practising writing our name or taking part in a funky fingers activity.

We have focused time on the carpet where we practise our maths skills and we have a daily phonics session with the phonic fairy!

We take part in weekly fun activities like dough disco and squiggle wriggle - this is sneaky learning as we don't realise how much it helps our fine motor skills and early writing skills as we are too busy having fun!

We have lots of time for busy choosing within the indoor and outdoor environment. There are lots of areas to explore!

We have lots of small

world resources that we

can help ourselves to - what will you build?

We have a large reading and phonics area with lots of exciting fiction and non-fiction stories, puppets and story sacks to play with.

We have a home corner with lots of resources to role play with. There are recipe books to look through and lots of home jobs to be done!

We have our lunch in the hall and time to run around outside at play time afterwards.

We have a large outdoor area with lots of resources to explore! A mud kitchen and lots of utensils, pots and pans to whip up tasty treats. We have lots of loose parts to create new buildings, vehicles and other exciting large models. Some days we have the bikes and trikes out and we make a car wash or take them onto the playground for a big play.

We have a rolling snack for if you are hungry throughout the morning. Don't worry, we always remind you and have time for a snack, milk and story before 11 if you forget!

We have a PE session once a week where we take part in activities and use sport equipment like balls, bean bags and the large climbing equipment.

We spend time in the forest area and go to a weekly forest school session where we learn lots of skills and develop a love of outdoor learning and the environment.
